Center for University Education Scholarship, this symposium builds on the campus-wide momentum for innovation and will provide an opportunity for educators to collaborate and learn from experts in the field. The day-long symposium will explore design for learning strategies that advance student success. The event is sponsored by the College of Agriculture and Life Sciences.

The symposium will feature an interactive keynote presentation in the morning and an afternoon workshop focused on collaborative class learning environments. Attendees will have the opportunity to learn from Dr. Tom Angelo, co-author of Classroom Assessment Techniques: A Handbook for College Teachers. The symposium will also provide a platform for educators to share their experiences and best practices.

Benefits of attending the symposium:
- Networking opportunities with other educators
- Professional development through workshops and presentations
- Access to new ideas and strategies for improving student success
- Engagement with experts in the field

Upcoming Events:
- "Design for Learning" Symposium on Apr. 6
- "The Business of Water" Seminar on Apr. 18-20
- "Reimagining Retail" Forum on May 1
