Associate Vice President Melissa Emrob

Innovation Venture Investment Program

The Innovation Venture Investment Program (IVIP) is a new, student-run venture capital fund. The goal of IVIP is to provide seed-stage funding to student-led startups.

This year’s first cohort included 12 teams, and the first cohort of the Innovation Venture Investment Program. The program provides hands-on experience for students in the areas of entrepreneurship, finance, and business development.

School Lead School Social Worker. We invite you to engage in a conversation about education, and outreach organizations on the patio at 5:30pm before the screening.
