### Training Repository Suggestions Box

Based on feedback from the Employee Engagement Survey, we have another great opportunity to solicit ideas from Division personnel. **Training and Development** was a major theme uncovered through the survey results and the **Training and Development Task Force** has delivered a solution to move the dial in this capacity:

How would you like to have a one stop shop for all things training related?

- A place where you could let others know of training and professional development opportunities you already know about that you think are useful
- A place where you can request training that may not yet exist
- A place where you can request existing training that you are not sure where to look

Look no more! The Training and Development Task Force is pleased to announce the training repository suggestion box. Your entries will be automatically e-mailed to the **Traning and Development Employee Engagement Task Force** of **Pam Denney, Hanh Do, and Karen Pizzuto** as well as the leaders of the employee engagement initiative, Heather Roberts-Wrenn and Dominic Rodriguez.

We will be coalescing submissions throughout the month of May, so if you can submit any suggestions soon, that would be ideal.

Thank you!

Pam Denney
